Beschreibung

Olivgrünes Streichholzheftchen mit schwarzem Aufdruck: These matches are designed especially for damp climates but they will not light when wet, or after long exposure (several weeks) to very damp air. CLOSE COVER BEFORE STRIKING. Innen: Streichhölzer, zweireihig (ein Streichholz fehlt), aus schwarzer Pappe und weißen Zündköpfen. Auf der Rückseite ist eine Reibfläche.

Das Streichholzheftchen stammt aus einer Einmannpackung.

"The United States' MRE is packaged similarly to the Canadian ration. Each sealed plastic bag contains one entire precooked meal, with a number of supplements and accessories. The original 12 menus have been expanded to 24 and now contain a variety of ethnic and special request items as well. Kosher/Halal and Vegetarian menus are also provided. Each meal bag contains an 8-oz main course (packaged in a four-layer plastic and foil laminate retort pouch), 8 hard military crackers, some form of spread (cheese, peanut butter, or jelly), a fruit-based beverage powder, some form of dessert (cake, candy, cookies, or fruit), and an accessory packet containing coffee or tea, creamer, sugar, salt, matches, a plastic spoon, and toilet paper. A chemical heater is packed with every meal." (http://en.wikipedia.org/wiki/Field_ration)
